EDUCATION

University of Technology Sydney **Sydney, NSW**
Master of Data Science and Innovation. *Jul 2026 – Present*

Macquarie University **Sydney, NSW**
Bachelor of Information technology, Major in Data Science. *Sep 2023 – Jun 2026*

LICENSES & CERTIFICATIONS

- Google Data Analytics Professional Certificate (v2) – Data Cleaning; Visualization Aug 2025

EXPERIENCES

Destrier Group | Macquarie University PACE **Sydney, NSW**
AI Developer, Industry-Sponsored Project *Feb 2026 - Jun 2026*

- Built and deployed two domain-specific AI sub-agents for intelligent query handling, leveraging machine learning and NLP models to achieve 88% accuracy across project evaluation scenarios.
- Stress-tested and operationalised an existing agentic AI prototype, identifying failure modes and supporting its transition into a Retrieval-Augmented Generation (RAG) architecture.
- Enhanced responsive UI components for the RISHI website using CSS and HTML.
- Collaborated with a five-developer team and industry stakeholders to prepare and preprocess training data using MySQL and Python, improving data cleanliness and ensuring high-quality datasets for model development.

Mercedes-Benz Haxaco **Ho Chi Minh City, Vietnam**
Software Programmer Internship *Jul 2023 – Sep 2023*

- Developed and maintained front-end components for the Mercedes-Benz Haxaco website using HTML, CSS, and JavaScript.
- Diagnosed and resolved front-end defects, including layout, styling, and functionality issues, to improve website reliability and user experience.
- Tested website components across development iterations and implemented code fixes based on identified issues.
- Collaborated with the development team using Git/GitHub for version control, code updates, and feature integration.

FEATURE PROJECTS

DataViz 2025 | Data Visualisation Project **Macquarie University, Sydney**
UI Developer & Data Analyst | Best Interactive Visualisation Winner *Oct 2025 – Nov 2025*

- Cleaned, organised, and analysed WHO pollution datasets using Python to identify countries exceeding WHO air and water quality guidelines.
- Developed interactive Streamlit dashboards to communicate air and water quality trends and enable intuitive comparisons across countries.

ASA DataFest 2025 | Data Analysis and Insight Project **Macquarie University, Sydney**
Project Lead *Apr 2025*

- Cleaned, analysed, and visualised real estate pricing data provided by Savills using Python, RStudio, and Tableau.
- Analysed Savills real estate pricing data to identify key market patterns for the Technology and Finance industry and translate findings into actionable consulting recommendations.
- Led the project workflow from data preparation and exploratory analysis to visualisation and presentation of key findings.

TECHNOLOGY SKILLS

- **Languages & Core:** Python, SQL, JavaScript, R, HTML, CSS.
- **Data & Visualisation:** Tableau, Streamlit, RStudio, MySQL, MongoDB.
- **Development:** APIs, Git/Github Workflows, CI/CD, Google Cloud Platform (GCP).
- **General Tools:** Microsoft Office (Excel, PowerPoint, Word).
